Your answers will be different than the data entered in the example below.

After going to the Website, this is the screen you should see. At the time of preparation of this guide, the website is not available for use.

Click on “Start Questionnaire”
The Census ID can be found in a variety of places, depending on how the person was invited.

Enter the Census ID in the blocks provided and click on “Login”. They will be taken to a screen where they can verify their address.

If you do not have a Census ID, click on “If you do not have...”. This is most likely to happen for the Homeless. It may also happen for people who lost their invitation or did not receive one. They will be taken to a screen where they can enter an address.
The next screen will ask the name of the Head of Household. **Remember that the race of the person selected as head of household will be important for Federal funding purposes.** The phone number will be used only for the purpose of verifying the information given.
The Homeless would enter their City, State and Zip and check the box “I do not have...” Click next to proceed.

If an address is not found, a warning is given and an opportunity to correct it. If this is the correct address, click on “Submit” anyway.

Important. Enter the number of people who are expected to be living at the house on April 1st. Up to 99 people may be entered using this survey.

Enter the names of everyone in the household. There is a line for the number of people given in the previous screen. If the number on the previous screen was incorrect, you may click on the remove button or the “+Add another person”
button. If you have changed the number of people in the household, you will receive a verification screen to which you will answer “Yes” or “No”.

Then comes some basic Household questions.
Upon reaching this screen, click on “Start” for each person listed. You again have to option to remove or add people.

Here, I have clicked on “+Add another person”.

...

- Other relative
- Roommate or housemate
- Foster child
- Other nonrelative

What is Baggin T Turtle’s sex?
- Male
- Female

What is Baggin T Turtle’s date of birth?
If you don’t know the date of birth, click here.

Month: [ ]
Day: [ ]
Year: [ ]

Verify or enter correct age as of April 1, 2020. For babies less than 2 year-old, do not enter the age in months. Enter it as the age.
This question consists of two parts: the first part asks for the date of birth, and the second part asks for the age of the person.

**Date of Birth**

**I know this information:**

- If you know the date of birth, enter it by selecting the month, day, and year of birth. The person’s age as of April 1, 2020 will be automatically calculated for you to confirm or correct.

**I know only part of this information:**

- If you know only part of the date of birth (month, day, and/or year), enter as much as you know, then confirm or enter the person’s age as of April 1, 2020. It is okay to estimate the person’s age, but please do not estimate the month, day, or year.
- If you leave any part of the date of birth blank, you may receive an error message. Follow the instruction above, then select 'next' again to continue to the next screen.

**I do not know any of this information:**

- If you do not know the date of birth at all, leave month, day, and year blank, then if possible, enter the person’s age as of April 1, 2020. It is okay to estimate the person’s age, but please do not estimate the month, day, or year.
- If you leave any part of the date of birth blank, you may receive an error message. Follow the instruction above, then select 'next' again to continue to the next screen.

**Age**

- If age has been calculated from date of birth, please verify the age as presented in the text box. Otherwise, enter the person’s age as of April 1, 2020.
- Do not round up the age if the person was or will be close to having a birthday on April 1, 2020.
- If you do not know the exact age, please estimate.
- For babies who were or will be not yet one year old on April 1, 2020, enter "0" as the age.

**How is date of birth data used?**

Many funding and planning decisions are based on age-related statistics and trends. For example, the federal government uses them to decide how to allocate education funds and to project the health care needs of the older population and veterans. State and local governments use them to determine age-related needs, such as a need to increase school system resources due to a growing population of school-aged children.
Click on “Remove” button to remove a person from the list.
Once the questionnaire has been completed for everyone listed, click on the “Start” button for the Final Questions.

This next step verifies that everyone has been counted correctly. At this point, the only block to be checked should be “None of the above”.

You do have an opportunity to review any entry you have made. If you want to change anything, click on “Edit Questionnaire” to make changes. Click on “Submit Questionnaire”.

One last step. Click on “Submit Census Questionnaire” to end the survey. You should receive a response indicating that the survey has been accepted.
You have completed the 2020 Census questionnaire. Please select the Submit Census Questionnaire button to finish.
