This question consists of two parts: the first part asks for the date of birth, and the second part asks for the age of the person.

**Date of Birth**

**I know this information:**

- If you know the date of birth, enter it by selecting the month, day, and year of birth. The person’s age as of April 1, 2020 will be automatically calculated for you to confirm or correct.

**I know only part of this information:**

- If you know only part of the date of birth (month, day, and/or year), enter as much as you know, then confirm or enter the person’s age as of April 1, 2020. It is okay to estimate the person’s age, but please do not estimate the month, day, or year.
- If you leave any part of the date of birth blank, you may receive an error message. Follow the instruction above, then select 'next' again to continue to the next screen.

**I do not know any of this information:**

- If you do not know the date of birth at all, leave month, day, and year blank, then if possible, enter the person’s age as of April 1, 2020. It is okay to estimate the person’s age, but please do not estimate the month, day, or year of birth.
- If you leave any part of the date of birth blank, you may receive an error message. Follow the instruction above, then select 'next' again to continue to the next screen.

**Age**

- If age has been calculated from date of birth, please verify the age as presented in the text box. Otherwise, enter the person’s age as of April 1, 2020.
- Do not round up the age if the person was or will be close to having a birthday on April 1, 2020.
- If you do not know the exact age, please estimate.
- For babies who were or will be not yet one year old on April 1, 2020, enter “0” as the age.

**How is date of birth data used?**

Many funding and planning decisions are based on age-related statistics and trends. For example, the federal government uses them to decide how to allocate education funds and to project the health care needs of the older population and veterans. State and local governments use them to determine age-related needs, such as a need to increase school system resources due to a growing population of school-aged children.

The screenshot shows the '2020 Census' interface. At the top, there are links for 'FAQ', 'INSTRUCTIONS', and 'ENGLISH'. A progress bar indicates the current step is 'People Questions'. The main content area asks 'What is Baggins T Turtle's date of birth?' and provides a link for help. Below this, there are three dropdown menus for 'Month' (04 - April), 'Day' (15), and 'Year' (2004). A second section asks to 'Verify or enter correct age as of April 1, 2020' with a text input field containing '15' and the label 'years'. At the bottom, there are 'Previous' and 'Next' buttons, and a row of language options including English, Spanish, Chinese, Vietnamese, Korean, Russian, Arabic, Tagalog, Polish, French, Kreyòl Ayisyen, Portuguese, and Japanese. The footer contains the text 'Build: 277ab04 | OMB No.: 0607-1006 | Approval Expires: 11/30/2021'.
