2023 Appendix C: Recreation and Gathering Spaces Summary

Goal Descriptions
Goal C1.1 To develop an integrated and systematic approach that incorporates the development of adequate and appropriate recreation and gathering spaces into all community development decisions.
Goal C2.1 Develop a system of park spaces and playground that are designed to meet the gathering and recreational needs of the community.
Goal C2.2 Develop a system of trails that connect recreation and gathering spaces throughout the community.
Goal C2.3 Integrate cultural connectivity into Recreation and Gathering Space development.
Goal C3.1 Make the Reservation Forestlands a welcoming and inviting place for Tribal members to reconnect with their lands and traditions.
Goal C3.2 Expand the appropriate use of gathering spaces as a way to bring more Tribal members back to their homelands.
Goal C4.1 Provide physical recreational opportunities for employees at Spirit Mountain Casino and the Tribal government.

Recreation and Gathering Spaces 2023 Update – Featured Accomplishments

Nature Playground (Goal C2.1) – Groundbreaking for the Nature Playground occurred in 2023. Select trees were removed to make room for the various playground features. Nature playgrounds are different from a typical playground in that they often include features such as water, gravel, rocks, sandpits, logs and boulder piles. The new Nature Playground will be located across the street from the Elders Activity Center and is expected to be complete in late-Spring or early-Summer 2024. This project was awarded a \$100,000 Spirit Mountain Community Fund tribal grant in 2023.

Nature Playground area being prepared for construction to occur in Spring/Summer 2024.

Dog Park (Goal C2.1) – Based on community discussions and feedback it was determined that a Dog Park was needed in Tribal Housing. A Dog Park was designed in 2023, and groundbreaking is anticipated in 2024. The dog park will be located in Tribal Housing just west of the basketball court parking lot.

Natural Resources Managed Lands Access Policy (Goal I2.1, I3.1) – The Natural Resources Department rolled out the Lands Access Policy in 2023. Every property owned by the Tribe is given an access rating from Level 1 to Level 4, which corresponds to the type of activities allowed onsite. Each property is also marked with a QR code sign giving guidance on who to contact for property access and allowed uses. Allowed uses will change over time as different land management activities occur onsite, so it's important to check-in to verify use before accessing a Tribal property. A copy of the policy and property maps can be obtained by reaching out to nrd@grandronde.org.

Online Booking for Big Buck Campground (Goal I2.1, I3.1) – The Natural Resources Department was approved to purchase a new online software system which will make online booking for reservations at the Big Buck Campground easier for both users and Department staff. It's anticipated the software should be in place and ready for rollout in 2024.
