3.2 Local Plan requirements

I agree that all Local Plans are consistent with the STIF requirements specified in OAR 732-040-0005(18)

☒ Yes

☐ No, one or more Local Plans are not yet consistent with STIF rule requirements.

4. Accountability

You may insert a web address in place of a description or document upload, as long as the information is sufficient enough to warrant approval of the STIF Plan and comply with STIF Rule.

4.1 Accountability methods

☒ By checking this box, I affirm that all of the necessary policies and procedures are in place to provide reasonable assurance that compliance with OAR 732, Divisions 40 and 42 is met, and to achieve the goals and outcomes specified in this STIF Plan, including, but not limited to: program and financial management, operations management, procurement, use and maintenance of equipment, records retention, compliance with state and federal laws, civil rights, and compliance with ADA.

☒ By checking this box, I affirm that all of the necessary policies and procedures are in place to provide reasonable assurance that compliance of all Sub-Recipients with OAR 732, Divisions 40 and 42 is met to achieve the goals and outcomes specified in this STIF Plan, address deficiencies in Sub-Recipient performance, and to provide reasonable assurance that the Qualified Entity can accomplish the applicable requirements of these rules, including but not limited to: audit and compliance requirements, accounting requirements, capital asset requirements, and reporting requirements.

4.2 Sub-Allocation method

☒ By checking this box, I affirm that all data used to develop the sub-allocation method was shared with each Public Transportation Service Provider and other potential sub-recipients, as relevant.

Describe the Qualified Entity's method for sub-allocating STIF Formula Fund moneys and the collaborative process used to work with Public Transportation Service Providers and other potential Sub-Recipients, as relevant, to develop the sub-allocation method.

The Tribe publicizes the STIF process. The Tribe contracts with Yamhill County Transit Area (YCTA) with non-stif funds for service between Grand Ronde and Willamina through an intergovernmental agreement. Initially, the Tribe contracted with SAMTD for service to Salem, but they ended their service with the Tribe contracted for service between Lincoln City and Salem with Tillamook County Transportation District. TCTA was not interested in this service. The Tribe discussed adding new services under STIF with TCTD and expressed an interest in doing so. All adjacent transit entities know the Tribe has these STIF funds.

Limit 1000 Characters

4.3 High Percentage of Low-Income Households

Explain how the STIF Plan defines and identifies communities with a high percentage of Low-Income Households.

Area zip code data showed those with the highest number of low income households. Willamina was the highest at 44% and was the 1st served by the Tribe's transit funds to connect to Grand Ronde. Salem & Rickreal were next. Dallas is at 34% and Grand Ronde is at 39%. The Tribe public transit does not go to Dallas even though it is the County seat for most Grand Ronde residents. There are more low income households in Dallas, than households in Grand Ronde. Also, the census blocks within Dallas and closer to the bust stops have lower incomes than those on the outskirts of town. Travel is needed for service and employment.

6. Projects

Beginning this cycle, you may now upload Sub-Recipient Project Applications instead of manually entering the information for each sub-recipient. All uploaded Sub-Recipient Project Applications must be approved by the Qualified Entity's Governing Body, and will be recognized as part of the Qualified Entity's STIF Plan.

In addition to this, any Qualified Entities with their own STIF Plan projects may enter that information directly into the STIF Plan, or may choose to upload their own Sub-Recipient Project Application. In all cases, you cannot split information for a single entity between the STIF Plan and an uploaded Sub-Recipient Project Application. All project information for a given entity must be contained either solely within the Sub-Recipient Project Application or STIF Plan itself.

Important note: If you'd like to use this optional upload feature, please enter the total amount from each Sub-Recipient Project Application in the conditional boxes that will appear below (this information can be found in the last section of the Sub-Recipient Project Application). This will ensure that the sum of all Qualified Entity and sub-recipient projects are included in STIF Plan section 7. STIF Plan Summary.
