When Pacific halibut are onboard the vessel during all depth halibut openers, there may be restrictions on retention of species in the groundfish group other than sablefish, other flatfish, and Pacific cod (which are always allowed), in areas north of Humbug Mountain. Check regulations before you fish. Catch limits and seasons are set in April but may change on short notice. Marine Zone Information

Fishing only allowed within MOA approved areas, not all areas within the Marine zone are approved. All regulations and bag limits not shown in these regulations revert to ODFW Regulations and Bag limits.

Mid-Season Regulation Changes

All regulations are subject to in season changes. Before you fish, please visit;

<https://myodfw.com/articles/oregon-fishing-hunting-regulations-and-updates>

Or call NRD for more information on mid-season changes.

Bag Limit Combination

Bag limits are not combinable with an ODFW state fishing license or tag for any species!! MOA Harvest license allows for doubling of state bag limits for select species. See Tribal Fishing Regulation Handbook for bag limits or call NRD for more information.

Harvest Caps

Annual state and federal caps are set for sport fisheries including black rockfish, yelloweye rockfish, canary rockfish, cabezon, greenlings and others. When a species harvest cap is reached or is being approached, regulations may be changed in-season to stop or slow the harvest of that species. In-season changes may include (but are not limited to) reduced bag limits, a change in size limits, non-retention of a particular species, area closures and season closures.

Check the regulations before you fish on ODFW's website or by calling a Marine Resources Program office.
